Description:

Abstract: This map is designed to represent and identify the location of BLM offices in Nevada. It is a point layer where each point is assigned a unique identification code and a label indicating the office location it represents.

Purpose: It is intended to be used as a supplemental layer using points to represent the location of BLM offices within the state of Nevada.

Supplemental_Information: The original data was digitized in MOSS at 1:1000000, and was converted to ArcInfo in 1994.
